Yes. Participants are cooperative so far. Wiley thinks they will leave after DEA leaves. Will keep you posted.

Subject: DEA Warrant Service at Oaksterdam Monday 2 Apr 12

As promised, I am submitting a few concerns from today's OPD assistance to the Feds regarding their warrant service(s):

1. The lack of notification to our Intelligence Unit and our upper command staff prevented us (OPD-Patrol) from better preparing for deployment of our limited resources. In fact, this event drained the vast majority of our west-end staffing thus resulting in several priority calls being stacked – something that might have prevented.
2. I am wonder why the warrant was NOT endorsed for “night service” – that would have made this entire operation much easier.
3. The lack of a communications plan and clear control/command – We never had one-point of contact for this event – As we attempted to set-up an action plan(s), we would speak with one supervisor of one agency only to have another agency take a different course of action – This cause much confusion for our folks when it came to forming skirmish lines and traffic control matters.
4. The lack of an “exit” plan from the sites – OPD officers spent FAR more time facilitating the exit of the agents (and their evidence) then we should have. Not only was this time and resource draining but exposed our staff to more conflict (harm) as well as complaints than necessary.

There were two arrests: 1 for 242 (Citizen's Arrest) and 1 for 148 (FW refused to comply with Sgt. McNeil's MANY requests to move out of the way of traffic during the “exit” portion of the operation.

I commend all sergeants and officers involved in this event for demonstrating professionalism and restraint whilst confronted with some very incorrigible and outright nasty individuals.

Thanks

Kevin

Subject: DEA Hitting NUMEROUS Marijuana locations today in Oakland - possible protest afterwards?

Sirs

Mike Weisenberg just notified me that 100 DEA agents would be hitting 6-marijuana dispensary locations in the downtown area today— they want us to be prepared for demonstrations which have occurred after such operations. NO OPD, to my knowledge, are involved in this DEA operation.

I have one open beat today (1L11) – Not enough resources to address this issue – Looking for some direction and/or back up help

Thanks
